

The TSA Secure Flight Program

The Transportation Security Administration (TSA) has announced the Secure Flight program taking effect in 2009. The TSA created this program to expedite the matching of airline passengers against those on known terrorist watch list. Airlines are required to submit a passenger list to TSA in order to receive permission to issue boarding passes to travelers. Travelers should contact Camelot World Travel to update their profile, or complete the Secure Flight traveler form and fax it to us. It is important that your airline ticket is issued using your legal name. Your birthdate and gender must also be added to each reservation booked.

For more information on this program view the [Secure Flight FAQ](#).

Important China Announcement

The following changes to visa application procedures for all Consulates of the People's Republic of China in the United States are effective immediately:

- Expedited processing has been temporarily suspended in many cities. The only processing speed available is 6 business days. This is standard in all cities.
- A declaration form, which lists the countries the traveler has visited within the past two weeks, is required in all cities.
- Mexican nationals will not be issued visas.

UPDATE: City-Specific Information

Several cities have reinstated same day and 24-hour processing, but with additional requirements. Please be sure to generate a new information request our website, as it will contain updated forms and requirements.

Quarantine Information

Chinese officials in the United States have since announced that they reserve the right to refuse entry or to quarantine, upon arrival in China, any individual who is suspected of being infected or has traveled to Mexico, Spain, USA, or Canada since April 20th. Chinese authorities in the U.S. have not indicated that they will suspend the issuance of visas altogether.

Any visa service claiming to be able to process a Chinese visa without the declaration form is acting outside of these new rules and could compromise your entry into China.

Contact the travel department at Camelot World Travel for assistance with your visa to China.
